

HRA *by BASIC*

A Health Reimbursement Arrangement (HRA) is a versatile benefit that helps employers cut down on rising healthcare costs. BASIC HRA combines second-to-none best practice administration with our industry-leading customer service to help your business maximize its healthcare dollars.

Whether we are helping you establish a new HRA or taking over administration for an HRA, we conduct a thorough review to help you avoid implementing or continuing with a design that is cumbersome, or even worse, discriminatory.

The BASIC Card & My-Cash

With MyCash, when an employee requests a reimbursement, funds are immediately processed and placed in an account that's available on their BASIC card. No more delays!

The BASIC Card is smart enough to pay for eligible items from benefit accounts and ineligible expenses (e.g., milk, gum, or other ancillary expenses) from a participant's MyCash account.

Elevate Your Benefits Package With BASIC HRA

BASIC HRA is the perfect tool to help employees bridge the gap between out-of-pocket expenses and group insurance coverage. Employers set the plan's benefit parameters for when and what is covered. Best of all, HRAs are tax-free for employees and tax deductible for employers.

- First Dollar Plans reimburse eligible out-of-pocket medical expenses, starting with the first dollar.
- Comprehensive Plans offer design flexibility by choose categories of expenses for reimbursement eligibility: including co-pay, deductible, RX, coinsurance, dental, and vision. Employers can choose to have participants to pay an initial amount before accessing their HRA funds.
- Any money left at the end of the year can be carried over to the next year, providing incentive not to use all their funds.
- You decide if reimbursements are paid from their BASIC FSA plan first and we make sure there is no double dipping.
